Government Embassies in Washington, D.C. in the United States of America, and Globally;  
National Space Agency Offices in Washington, D.C. in the United States of America, and Globally;  
Non-Government, Corporate, Scientific, Academic, and Private Space Organizations, Individuals, Globally;

**ATTENTION: Ambassadors & Attachés – National Embassies;**

**Directors & Attachés – National Space Agencies;**

**Leaders & CEO's – Aerospace, Scientific, and Academic – Communities, Corporations, Institutions, and Organizations;**

**Dear, Esteemed Ladies and Gentlemen, Respectfully,**

We at the International Space Agency ask for just one moment of your busy time, for a Noble and Historic Endeavor of Great Magnitude to the Benefit and Well Being of the Future Affairs of the Peoples of Earth, Thank You. Please know we are asking for this Diplomatic and Proprietary Dispatch and Communication to be widely redistributed and retransmitted among the Diplomatic and Aerospace Community, to insure it is received and known by those in positions of power and influence. We are also asking that those receiving this communication, who support its objectives and purpose, to present it on their organizations websites, so it can have expanded awareness in target Diplomatic, Aerospace, Scientific, and Academic Communities, Globally. We are also asking the Diplomatic and International Communities, to translate this historic Diplomatic Communication from the International Space Agency, into the many Languages of the International Community, and Peoples of Earth, so its message can find wide understanding in the Consciousness of the Peoples of Earth, Thank You.

Since its Founding in 1986, the International Space Agency Organization has had to struggle against established thinking, ingrained power blocks based on rivalry and political objectives, and basic misunderstandings mostly from the fact that people and organizations globally did not properly understand what the International Space Agency was or what it offered over the established way of doing things.

This has led to intense passions, entrenched protectionism, unfortunate misunderstandings, and even clashes of words and deeds, which have been less than positive for all concerned, or has this advanced in anyway the peaceful and productive advancement of the Human Space Exploration Endeavor in the last 32 years. We plead, and beseech that those of you receiving this Confidential & Proprietary Diplomatic Dispatch, and who are Key Leaders of the Space Community and Human Space Endeavor, to accept our humble offer to come to the round table of debate and negotiation regarding the International Space Agency and its Historic Vision and Important Endeavors, in June/July of 2019 in Washington, D.C.. This date is a proposed time frame, and may change as support for these meetings develops, and the list of potential representatives and attendees grows and becomes more defined. Pledged support for these meetings, is greatly needed, and is humbly requested.

The International Space Agency has grown over the years, since it was Founded in 1986 and formally incorporation in 1990, lead by a very small but very determined group of visionaries and dreamers. Yes, the International Space Agency is at present a very small and insignificant organization with limited resources, support and understanding when compared to the standards of National Space Agencies like NASA, Roscosmos, ESA, CNSA, JAXA, ISRO, Ect.... and Big Global Aerospace companies like SpaceX, Boeing, Ariane Space, Energia, Airbus, Great Wall Of China Industries, Honda, Ect.... Indeed, they where ALL once like International Space Agency is now!

However, all things must have a humble beginning; and every long journey begins with one first step! The Airplane had the Wright Brothers and fragile Wright Flyer. National Aeronautics And Space Administration, NASA had the NACA. European Space Agency, ES'~, from a small band of intensely competitive European independent states. And so on and so on..... Every journey indeed starts with a simple FIRST STEP, and sometimes that fist step, and its following initial steps are baby steps, and in many cases at a snails pace. Change, new ideas, and new ways of doing things has never in Human history gone smoothly and with out resistance or risk. Galileo Galili was nearly burned at the stake as a heretic for presenting knowledge of our solar system and astronomy that is common knowledge today; Wilbur and Orval Wright where mocked and viciously ridiculed as crazy bird men who wanted to flap their arms and fly like birds yet today many millions of human beings fly every day like the birds to the four comers of the Earth on things called Airplanes; Nicola Tesla who was the greatest scientific and creative mind of the modern era was visously ridiculed as a mad scientist and warlock for his genius, great works, and deeds for the benefit of Humanity, and today his genius gives us

# INTERNATIONAL SPACE AGENCY – I. S. A. – INTERNATIONAL SPACE ADMINISTRATION AD-ASTRA – TO THE STARS – IN PEACE FOR ALL MANKIND

YR: 2019 SD: 059 TM: 17:00 TY: EXT CT: GOV CF: DIP CL: PRO DI: GRA AU: 2019777 NA: 777 PG: 2 of 18

A/C Power & Radio Controlled Devices & Microwave Ovens & Laser Technology and many other modern technology advances and knowledge; Howard Hughes was viciously hounded and mocked for daring to build the worlds largest flying boat "Hercules 500" and amazingly out of spruce "wood" which was branded out of spite and jealousy the "Spruce Goose", which Howard Hughes INDEED built and actually operationally flight tested, and sits today in the Evergreen Aviation & Space Museum in Portland, Oregon, U.S.A., and is one of the most visited man made objects on Earth; The all knowing Nay-Sayers said that flying faster than the speed of sound was impossible until a man called Chuck Yeager broke the sound barrier; and people were once called lunatics "crazy" for saying that man could "and would" walk on the moon until a man called Neil Armstrong stepped off the Lunar Lander Eagle and said the now famous words: **(One Small Step For "A" Man And One Giant Leap For Mankind!)**. All of these things were said by the all knowing educated elite and nay-sayers of the time as impossible feats, but yet INDEED, they have ALL been done! A great visionary man, Admiral, Rick R. Dobson, Jr. who is the Founder of the International Space Agency, in 1986 against incredible odds and adversity, dared to step up to home plate and take a swing at history, and in doing so sacrificed everything and suffered deeply from the whips and lashes that were likewise felt by Galileo Galili, Wright Brothers, Nicola Tesla, Howard Hughes and those who gave us John Glenn & Neil Armstrong. There are well known sayings like **"Rome Was Not Built In A Day"**, **"Every Journey Begins With A Single Step"**, and one of the most notable children's stories and parables about the fictional race between the Hare "rabbit" and Tortoise "Turtle" in which the faster Rabbit does not win the race, but indeed the slower and more determined & humble Turtle crosses the finish line first.

Indeed, the Airplane had the Wright Brothers and the fragile Wright Flyer; NASA had NACA; ESA materialized from a small band of intensely competitive European independent states; Galileo Galili was nearly burned at the stake, because he said the Earth revolved around the Sun; the Wright Brothers were called crazy bird men and endlessly attacked because they dared to say that man could fly through the air like Birds; And so on, and so on..... As an American, I am naive to the likewise traditions and histories of other cultures and nations, on Earth, but I am very wise to the fact that this dilemma and human nature abounds everywhere. Change is not easy, in any age, in any culture, or any place on Earth. The Vision and Endeavors of the International Space Agency represents CHANGE, and in so, it must fight for every breath it takes and every inch it moves forward. There will soon come the day, when the minds and consciousness of the many peoples of Earth will take the reality of the International Space Agency for granted. It is YOU!, who now read this historic dispatch and plea for help, that will either bring this Vision to LIFE through your actions and deeds, or set in motion the sharp fiery arrows that will DESTROY it! The Future of the International Space Agency is NOW in YOUR HANDS, literally! So, Ponder well this decision of great importance, that will have great impact on the future course of human events and history! What will those 100 to 200 years in the future think of us today, we humans who had the future in our hands?

With the specter of nuclear missile subs of Russia, Europe, China, America roaming our planets oceans, EACH ONE having the destructive power to completely obliterate whole continents, killing every plant, animal, and yes, human, on that continent! Nations also possessing the ability and means of biological weapons, that mere ounces of a weaponized virus or biological agent can wipe out whole cities in a most horrific and frightening way. Even now on the frontiers of science and technology, weaponized applications of supercomputer technology could create self-aware AI computers that have no morals or remorse, and could become a Frankenstein Monster turned loose on its creators with cold calculating precision and unlimited potential. Research into X-Ray Weapons and Energy & Frequency Weapons that not only kill and destroy UNSEEN, but indeed fragment and self-destruct the Human DNA genetic strands, as well to plant and animal DNA, leaving living things as walking dead, and either preventing procreation, or yielding great pain and suffering that has generational implications. Even the purposeful tampering with Human DNA to create super Humans and Super Soldiers, including mingling animal DNA with Human DNA to create Human Hybrids that for example could have enhanced night vision, or hearing, or smell, or greater speed and strength. Even in the arena of the human mind and consciousness are attempts to merge technology to biology, and to manipulate human mind and consciousness for either nefarious purposes or military use. In all of the above references to militarized or nefarious uses of science and technology, it must be noted that such things if under civil or positive control for the benefit of Humanity, would greatly enhance the well being of Humanity. Just a few examples of which could be, Nuclear Fission & Fusion for Civil & Space Power & Propulsion, Civil Biological Research to find cures for Disease, Use of X Ray and Frequency Technology for Civil Medical & Manufacturing purposes, Civil Genetic research for legitimate peaceful & medical purposes, Civil human mind and consciousness studies for legitimate peaceful & medical purposes, and the peaceful & legitimate civil use of computers and robotics to benefit and serve humanity, NOT to harm, dominate, or control Humanity!

With Humanity now possessing the means and ability to its own destruction, and indeed most of life on Earth along with us! Is it therefore not much to ask, for such a peaceful and hopeful potential out let and use, for Science and Technology, as the International Space Agency, which potentially could open a vast and infinite frontier of great opportunity and HOPE for Humanities Future Well Being And Survival, to be given a fair and honest chance to prove its worth and potential?! How can the powers at be, loose face, or look weak by coming to the International Space Agency negotiating table in Washington, D.C., in June or July of 2019?! Hmmm!?! I dare say the WE at the International Space Agency HAVE something you NEED!, an EXCUSE to sit at the same table with your enemies, allies, protagonists, and supporters for something that may offer a way to push the Nuclear Clock back from Midnight by a few minutes! Surely NO HARM could come of it?, indeed the likely hood is, that rather MUCH GOOD could, and WOULD, come of it! Please, Come, put your awesome and frightful weapons of mass destruction in your back pocket and just temporally retract your claws, and give you, me, them, and all of humanity and life on Earth a CHANCE to survive this rolling snowball of madness. We of Earth are turning IN on Ourselves over a Finite Earth that in the end will only lead to ONE SURE Conclusion. When Humanity is NOW on the thresh hold of an INFINITE frontier; which will allow humanity to turn OUTWARDS peacefully into a potential of unlimited resources & opportunities, beyond all imagination! Come to the Round Table, and give your children, their children, our children, a chance at a future for the Peoples of Earth! If not for me, or them, do it for YOU and your Children's CHILDREN, and indeed all life on Earth.

# INTERNATIONAL SPACE AGENCY – I. S. A. – INTERNATIONAL SPACE ADMINISTRATION AD-ASTRA – TO THE STARS – IN PEACE FOR ALL MANKIND

Founded In 1986 - Incorporated In 1990 - Presently Seeking International Treaty And Charter Status

NOTICE: Letter Is Diplomatic & Proprietary, Non-Profit Public Release Authorized, All Use With Respect For Trademark & Copyrights

YR: 2019 SD: 059 TM: 17:00 TY: EXT CT: GOV CF: DIP CL: PRO DI: GRA AU: 2019777 NA: 777 PG: 3 of 18

Has the International Space Agency made mistakes over the years? Sadly, Yes, and mostly from inexperience and lack of proper resources and support. However, ISA has grown, learned, and matured over these last 32+ years, as also has its vision and endeavors, that will one day soon have better resources and support. We at ISA at least deserve to be recognized for our determination, zeal, and many sacrifices in patiently enduring the gauntlet for 32+ years. In the End, it will not be Admiral Dobson that will benefit from the eventual success of one of the most important and historic efforts and endeavors of our time. It will indeed be a Legacy to Benefit all Mankind! **“Rome Was Not Built In A Day” & “Every Long Journey Begins With One Single Step” & “The Parable Of The Tortoise and the Rabbit”**. Hmmm...! SO, What HARM will it be, for the negotiation round table of wisdom to be filled with those seeking answers to their questions, and indeed hollowed ground on which key and important persons can actually contribute their input, ideas, concerns, and hopes?! Ad Astra! To The Stars! In Peace For All Mankind!

So the International Space Agency is humbly asking you Ladies and Gentlemen of Esteem and Prominence to come to the Round Table in June/July of 2019 in Washington, D.C., and BE A PART OF HISTORY IN THE MAKING! For the ISA is indeed, YOU! It is the SEED of a GREAT OAK TREE, and it is YOU whom is the EARTH and WATER which will give it life, and GROW IT from a SMALL SEED OF VISION into a massive and beautiful TREE of an Organization, that will greatly BENEFIT Humanity of EARTH as it enters the Infinite Frontiers of Space. Future Humans that may one day travel to distant stars and destinations, will owe their destinies and existence to what WE do TODAY!

The American President, and NASA, have dedicated the American People to a dream to reach for the Stars! The Russian President and Roscosmos, have formally stated that International Cooperation is needed on the Space Frontier and have backed this with resolve and dedication. The European Community, and ESA, have likewise formally acknowledged that cooperation is not only needed, but is necessary if any real success is to be achieved. The Chinese President, and CNSA, have with great effort and resolve, entered the space arena in meaningful and major ways, and becoming only the third Nation in history to achieve human orbital space missions, and furthermore making it also known that they would welcome international cooperation. Other smaller and emerging Space Nations like India "ISRO" and Japan "JAXA", have in a massive flurry over the last few years negotiated and positioned themselves to take advantage of the opening of the next Great Human Frontier, the Space Frontier. Which they all know is very near to being fully opened to human efforts and enterprise, and will represent many Trillions of Dollars in New Jobs, New Technologies, and many New Economic Opportunities. In over 500+ meetings organized or sponsored to date by the International Space Agency since its first historic International Space Agency Meeting on May 22nd of 1992 at the Carnegie Endowment For International Peace in Washington, D.C., U.S.A., it has been stated over and over and over again by the Government, Aerospace, Scientific, and Academic: attendees at these many meetings, that international cooperation in the Human Space Endeavor was not only sought and supported, but was, and is, required due to the cost complexity, scope and scale of such endeavors. So to be blunt and direct, is it not now time for every one to stop dancing around, and to now start putting their signatures onto the international Space Agency Treaty effort. Hmmm?!

This paragraph was hard for me to write, as it deals with the ugly reality of human nature, and is less than positive, but sadly, it MUST BE ADDRESSED! If greedy and self centered humans or organizations get their teeth and claws into the International Space Agency vision and endeavor, it will surely back fire and disintegrate. The International Space Agency has indeed been on the diner menu of such malcontents and egomaniacs since it was founded in 1986. We at the International Space Agency are routinely picking their teeth and claws out of our hind quarters. It is now 32 years, and we are still on our feet and moving ahead at best possible speed. These planned Diplomatic meetings in Late 2019 / Early 2020 in Washington, D.C., will not only cast a light onto the parasites and predators snapping at the heels and rear quarters of the International Space Agency, but will bring benefactors, advocates, champions, protectors, and allies into the International Space Agency fold and vision, that have much bigger teeth and sharper claws than the jealous, spiteful, and petty parasites and scavengers now stalking and trying to devour and destroy the International Space Agency. I have been told many times over these last 32+ years **"NOT TO TELL THE TRUTH"** because it is not endearing to the NAKED KING "QUEEN"! But if the KING "QUEEN" IS NAKED, he "she" is indeed NAKED! 😊 I would surely hope when I am old and senile and walk around with no clothes on, that SOMEONE would actually out of compassion and empathy, politely tell me I had NO CLOTHES ON! Hmmm!? They say that TRUTH is a rare commodity now days, and even others say that TRUTH in these perilous and polarized days is a dangerous thing! I will close on this note by simply saying, if the KING "QUEEN" who everyone is afraid to tell the TRUTH to, because He the King, "She the Queen" is frolicking through the Tulips NAKED for all to see, and OH BY THE WAY!, also just so happens to have His "Her" finger on the NUCLEAR BUTTON, then I dare say, we are all in for a real rude awakening one day! It would then seem apparent to me that it is not the Tulips we would be embracing, but more like Lilies. But Alas, I must take, that back because the Lilies, and the **"Apple Trees"**, and the **"Birds and the Bees"**, and the **"Lions and Tigers and Bears, Oh No!"**, will all be gone as well. Then the Morlocks and Coachroaches will then gallantly RULE THE EARTH! I dare say, that is a very bleak and disheartening thought indeed! 😊 **Hmm?, I wonder if the Dinosaur's had even the most remote inkling as to what was in their future, or more correctly, the Lack there of?!**

The International Space Agency is proposing for Late 2019/Early 2020, planned private and confidential diplomatic and proprietary meetings **"that will NOT be accessed by the Media or General Public"** to propose, develop, complete, and hopefully ratify/approve the International Space Agency Treaty & Charter "Constitution Document". In support of this ends, the following proposed agenda supported by the Global Space Community, in tandem with the proposed opening of the International Space Agency Offices in Washington, D.C. in January/February of 2020.

With this great opportunity and spirit of good will Globally, we at the International Space Agency, plead, and propose the following agenda supported by the Global Space Community, in tandem with the proposed and planned opening of the International Space Agency (ISA) Offices in Washington, D.C. in 2020. We are presently working hard to secure \$4,260,416 Grant, Contribution, or Donation in support of the opening of the International Space Agency Washington, D.C. Office, and Planned Efforts & Projects for 2020 and beyond. Any help or support in this regards, would be greatly welcomed. The "Proposed" ISA Annual Office Budget is provided with this confidential and proprietary diplomatic dispatch.

# INTERNATIONAL SPACE AGENCY – I. S. A. – INTERNATIONAL SPACE ADMINISTRATION AD-ASTRA – TO THE STARS – IN PEACE FOR ALL MANKIND

Founded In 1986 - Incorporated In 1990 - Presently Seeking International Treaty And Charter Status

NOTICE: Letter Is Diplomatic & Proprietary, Non-Profit Public Release Authorized, All Use With Respect For Trademark & Copyrights

YR: 2019 SD: 059 TM: 17:00 TY: EXT CT: GOV CF: DIP CL: PRO DI: GRA AU: 2019777 NA: 777 PG: 4 of 18

The strategy for the proposed and planned ISA Diplomatic & Proprietary meetings in 2019/2020, is to secure the funds for the staffing and assets required to host and conduct these meetings, through a meeting attendance fee structure, with some additional funds raised through advertising in the primary meeting manual and session reports that will be generated for this historic endeavor and event. The details of this and the proposed and outlined schedule and parliamentary structure of meeting closed door sessions and open sessions is also included in this letter.

As the Global Space Community, both Government, and Civil Sector responds to this most important letter and event the scope, scale, and full tempo of these planned meetings will materialize and come into focus. If those with Eyes to See, Ears to Hear, and Voices to Empower, carries this communication through out the Global Space Community, amazing things could come from this. As the Founder of the International Space Agency Organization and endeavor, I have given in the last 32 years of my life, all I have, and all I am, at the cost of great pain, suffering, and sacrifice, and not to mention the victim of malicious and vicious lies, propaganda, purposeful disinformation, humiliation, loss, and even on a number of occasion's physical harm to myself. I have faced the gauntlet not for fame, fortune, power, title, but for all of YOU! Yes, You! And indeed, all my fellow human beings on this Earth. Here are the formal requests being submitted.

**1) This Spirit of Good Will and Cooperation be Formally Embodied in a Draft International Space Agency Charter/Treaty**, which will be signed by all interested Space Nations and Organizations Globally, and will act as a starting point to develop more formal Treaty "Constitution" & Legal Agreements By, and Between, International Space Agency Member States & Organizations. This Historic & Important document will bring the International Space agency to its next Logical stage of development, and will formally acknowledge the International Space Agency as such. Furthermore, it will then allow for real work to begin on an International Fully Reusable Space Plane Launch System and Operational Research and Development to actualize an International Luna Base & International Missions to Mars, as well as a host or other exciting ventures.

**2) Each new International Space Agency (ISA) Member State or Organization will dedicate a formal liaison to their Head of State or Chief Executive Officer** which will act as the official representative of that Member State or Organization To, and On The Behalf Of, the International Space Agency (ISA) Organization. This will eliminate red tape and unnecessary bureaucratic entanglements and posturing, and allow more rapid and focused development of the ISA Organization. and its planned and proposed Programs, Projects, Missions, and Efforts. In effect this appointed person will on the Government side act as the appointed National Ambassador to the international Space Agency Organization, and on the Corporate and Private Side act as the Official Spokes Person or Liaison to the International Space Agency. These appointed officials would sit on two separate commissions. The Government Officials would serve as part of the Space Regulations Commission (SRC) of the International Space Agency, and the Non-Government / Corporate / Academic / Private officials would serve as part of the Space Planning Commission (SPC) of the International Space Agency. The SRC and SPC would initially be scheduled to meet collectively (Quarterly) every 3 months to provide insight, support; and direction to the International Space Agency Executive Leadership, Management and Personnel that would be composed of the International Space Administration, International Space Centers, International Space Commands, and also the key institutions of the International Space Academy, International Space News Organization, and International Space Agency Foundation & Societies.

**3) Each new ISA Member State & Organization will dedicate one full time staff person "REPRESENTATIVE"**, to work at the new ISA offices in Washington, D.C., under the direction and authority of the International Space Agency Director and Chief Executive Officer, to accomplish ISA Diplomatic, Administrative, and Operational Directives and Efforts. These members of the International Space Agency staff will be paid for and subsidized by the signatory and member states and organizations, and thereby greatly expanding the personnel resources of the International Space Agency with limited overhead, arid allowing limited resources to be strategically focused on Operational Research & Development and Actual Hardware. This will also allow for a diversity of national perspectives and insight to be infused into the International Space Agency Organizational Culture and Dynamics.

**4) Each new International Space Agency Member State and Organization will be respectfully requested to provide and dedicate two College or University students**, although not a mandatory request it is humbly suggested for the purpose providing a balanced representation of the source Nation & Culture, that one Male, and one Female, between the age of 18 and 25, be provided to work at the new ISA Offices in Washington, D.C., under the direction and authority of the ISA Director and Chief Executive Officer, to accomplish ISA Diplomatic, Administrative, and Operational Directives and Efforts. These young College, University, and PhD Students will bring the youthful and hopeful inspiration and hope of their generation of the source Nation and Culture, to the future of the Human Space Endeavor. Indeed, many of these bright young people from the many nations around our Earth will not only contribute to the continuing development and growth of the International Space Agency, but will indeed likely be the future officers and personnel that will be future leaders of the International Space Agency and even many of them may one day soon work on the Space Stations, Space Ships, and Luna and Mars Bases that will materialize and Come To Be as a result of the International Space Agency. Their youthful innocence, energy, and dreams, will be the life blood of the International Space Agency as it comes of age, It is my HOPE that these young bright people from the four comers of our Earth can come together on this New Space Frontier, and look out the windows of their Space Stations, Ships, and Bases and see the EARTH which they ALL came from, and with their fresh youthful innocence and passion, find peace and hope for the future of Humanity.

**5) Lastly, we propose a series of Diplomatic and Executive meetings to occur in some location in Washington, D.C., at some appointed dates and times as to hopefully take place in June and July of 2019.** These meetings would be confidential, private, and proprietary and would be attended by all interested Governments, States, and Organizations wishing to Debate, Negotiate, Contribute, and Participate in the Creation of the First Draft of the International Space Agency Charter, and to then become Signatories to that very same First Draft of the ISA Charter. This will be the official gateway and path to more defined and higher level meetings that will result in the drafting of Treaty and Contractual documents and agreements, that will then empower, fund, and support the International Space Agency Organization, and giving it the personnel, resources, and

# INTERNATIONAL SPACE AGENCY – I. S. A. – INTERNATIONAL SPACE ADMINISTRATION AD-ASTRA – TO THE STARS – IN PEACE FOR ALL MANKIND

Founded In 1986 - Incorporated In 1990 - Presently Seeking International Treaty And Charter Status

NOTICE: Letter Is Diplomatic & Proprietary, Non-Profit Public Release Authorized, All Use With Respect For Trademark & Copyrights

YR: 2019 SD: 059 TM: 17:00 TY: EXT CT: GOV CF: DIP CL: PRO DI: GRA AU: 2019777 NA: 777 PG: 5 of 18

support required to undertake Peaceful and Non Military International Cooperative and Collaborative endeavors and programs OUTSIDE the capability or ability of the National Domain, and do so in a manner that will insure sufficient scope, scale, and longevity able to allow for sustainability and secure, dynamic, and robust organizational and program infrastructure and operations.

**At Present**, the number one and most critically important Program and Endeavor being advanced by the International Space Agency since 1988, is the International Space Plane Program and Electromagnetic Assisted Space Launch System. The Space Plane Component of the Program would be a Single Stage To Orbit Fully Reusable, Space Plane "Like the U.S. and Russian Space Shuttles", but unlike the U.S. Space Shuttle, there is no main tank or solid rocket boosters. The Electromagnetic Assisted Launch System "Like An Aircraft Carrier Catapult" imparts basically most of STAGE ONE kinetic energy to the Space Plane at launch and the onboard fuel tanks and engines carries the space plane the rest of the way to stable Earth orbit. The U. S. Space Shuttle was able in its 30 year history able to only achieve 2.6 launches per month where as the International Space Plane Program and Launch System will be capable to achieve 5 to 7 launches PER DAY or annually between 1865 launches per year and 2555 launches per year. So in 5 days the International Space Plane Program will yield more launches than the entire U.S. Space Shuttle Fleet attained in one year. And an important fact here, is that every time the U.S. Space Shuttle Launched they THREW AWAY a 13 story high main tank of tons of high grade metal ore and millions of man hours and expertise! The International Space Plane Program is 100% reusable, no waste of precious resources and man power. With out the International Space Plane Program and the massive capability it represents talking about sending millions of tons of materials, assets, and personnel into Earth Orbit and onto Luna, Mars, and Beyond is IMPOSSIBLE! For any enterprise to be managed in a way that every time you put one tone in orbit but throw several tones away to do that is not only unsustainable, but ludicrous! We MUST put the HORSE before the CART! The capability and sustainability of the International Space Plane Program is critically needed to provide TRUE low cost routine, and sustainable access to Earths Orbit and beyond, but is OUTSIDE the ability or capability of the Nation State infrastructure or means, and therefore it MUST be achieved as an international collaborative and cooperative frame work like Airbus Industries, and European Space Agency, which is the smaller Regional cousin of the larger Global International Space Agency. Once the HORSE has been securely hooked up to the CART "Chariot", then, and ONLY THEN, can we in good conscious talk about an International orbital infrastructure of Rotational Gravity Stations, Microgravity Stations like the International Space Station, orbital Ship Yards and Industrial Manufacturing & Commercial Assets & Fuel Depots, and then onto Luna Bases and Exploration and use of Lunar Orbit for ship yards and large scale manufacturing of space assets and ships, and also Bases on Mars and exploration and settlements on Mars, which will indeed be the NEW WORLD of our age, literally! But until the HORSE is securely in front of the CART all such talk is useless and unsustainable! Bring the International Space Agency Organization into full focus, THEN, empower and fund the International Space Plane Program and International Electromagnetic Assisted Space Launch System and THEN, as they say, WE ARE OFF TO THE RACES! I assure you, if, and when, a human from Earth sets foot on Mars, it WILL NOT be an American, or Russian, or Chinese, ect ect, Flag on the Uniforms of the Crew or on the Space Craft, or even the Corporate Icon of Space X, Ariane Space, Energia, Honda, ect. Ect., or the symbol of the iconic National Space Agencies like NASA, Roscosmos, CNSA, ESA, ISRO, JAXA, ect., ect., it will in fact be the emblem of the International Space Agency (ISA), it is just a matter of fact of the reality of economic and material management and sustainability!

It is NOT that the International Space Agency replaced, eliminated, or even controls any of these flags, icons, institutions, governments, and ideologies, but IN FACT embodies them collectively and symbiotically into its very being and existence. The crew will come from MANY Nations, and the support and expertise to carry out such a daunting mission and endeavor will come from MANY National Space Agencies, and every nut, bolt, screw, wire, and component of the space craft that lands on Mars will have been PROUDLY made by companies like Space X, Ariane Space, Energia, Honda, and many many others around our Planet Earth! The International Space Agency like a coral reef looks like a single entity, but in fact like a coral reef that consists of millions of individual entities, likewise the International Space Agency is made up of many individual entities working TOGETHER to achieve a common goal and endeavor which none of them could have ever achieved individually. So even through the EMBLEM of the International Space Agency will be on the Uniforms of the Crew and on the Ship that takes them there, it will in fact be the many globally who labored and sacrificed that gave the breath of life to the International Space Agency, and the essence of existence that flows through it veins. ISA is NOT your enemy, it is indeed your best chance to give HOPE to your children, and to their children, on this little blue speck of dust in the Infinite Creation of the Universe, A Little Planet We Call Earth! **Build It!, And They Shall Come!**

**Since this letter will have wide global circulation**, we know those of power and influence, including Presidents of USA, Russia, China, and other Countries, and Leaders in National Space Agencies & Aerospace Corporations Globally will be made aware of this letter, sooner or later.

**We plead. and humbly ask. for your support of this historic and important proposal and effort.**

What we propose, can only contribute greatly to present efforts of cooperation, collaboration, and joint efforts globally in the Space Community, and in already proposed International Space Initiatives and Programs, and will contribute greatly to improved international relations.

We also ask that this letter be sent on to Colleagues and Key Space Policy Leaders and Space Agencies & Organizations Globally. We ask for those in positions of Power & Influence to please let this effort have an opportunity to prove itself before judgment or scorn is cast at our feet. We are working hard for you, and the common interests of the Global Space Community, and indeed for all Humanity of our Planet Earth. We only plead for a fair chance to prove that this historic cause and vision, is a worthy and beneficial enterprise and noble endeavor of our time and era

Our most Sincere Wishes to the Peoples of Earth in this Season of Peace, Happiness, and Celebration, And a Sincere Hope for a Wondrous and Historic Year, in 2019, and for the International Space Agency proposed and planned efforts in 2020.

**TOTAL BUILDINGS & FACILITIES & OPERATIONS BUDGET - ANNUAL MONTH**  
**TOTAL E - \$2,596,000 \$216,333**

**TOTAL ISA WASHINGTON, D.C. OFFICE ANNUAL BUDGET FOR 2020 - ANNUAL MONTH**  
**TOTAL A & B & C & D & E - \$4,260,416 \$355,034**

**NOTE:** This proposed startup budget for ISA Diplomatic Office in Washington, D.C. & Proposed Operations for 2020, would consist of. 38 dedicated personnel; 1 office facility; 1 housing and VIP facility; 4 staff and VIP vehicles; 12 specific key Program Initiatives; focused marketing/advertising/outreach objectives globally; focused student outreach programs globally; focused public outreach globally; 3 specific key technology initiatives, focused startup for ISA International Space Academy and Training Programs, focused startup of National ISA Societies Globally through the ISA Foundation; dedicated sponsorship of Academic Papers and Scientific Research; specific outreach and diplomatic endeavors with National Governments & National Space Agencies globally, specific outreach to Aerospace, Commercial, Industrial, Scientific, Academic Communities and Institutions globally; specific networking with NGO's, Non Profits, Societies globally. If this initiative can be fully funded by Government, Corporate, Academic, Private Grants, Donations and Contributions. It is fully expected that the ISA will not only achieve Global recognition and awareness, but develop & secure broad support for International Science and Technology Jobs and Technology Development in an International Space Exploration Program, which will surely result in the creation of a new "Space Industrial Complex" that will far outstrip and exceed anything presently in the "Military Industrial Complex" by scope, scale, complexity, and capability, with more peaceful and productive results.

**Here is the ISA Meeting: Proposed: Facilities & Staffing & Fees & Format & Schedule:**

**Weekly / Monthly ISA Meeting: Proposed: Facilities & Staffing Assets Required**

**1) Facility Requirements: Partitionable Conference and Banquet Hall Able to Accommodate: Proposed/Estimated ~ \$250,000 to \$350,000**

- A) 250 to 500+ People in Classroom Desk Format Facing a Main Presentation Stage and Very Large Video Projection Screen.
- B) 250 to 500+ People in Banquet Table Format with Kitchen Staff and Facilities able to provide 4 Star White Glove Service and Food Quality
- C) Monday Only - 8AM to 10AM - Buffet Breakfast / 1PM to 3PM - Buffet Lunch / 7:30 PM to 8:30 PM - White Glove Served Diner
- D) Monday Only - 7PM to 10PM - Placement of 20 to 30 Musicians Orchestra Style on a Stage in front of a Wood Dance Floor
- E) Monday Only - 7PM to Midnight - DJ and Sound Board Bay or Station to one side of stage
- H) Sunday Only - 8AM to 8PM - 1000+ People and Display Booths ( Power & Internet Access ) for Public Conference Event Set Up

**2) 4 Private Meeting Rooms Able to Seat 50 People in Classroom Format Facing a Main Presentation Stage & Video Projection Screen**

**3) 1 Private Meeting Room Able to Seat 20 People in Board Room Format - Video Screen & Conferencing and Internet Access Capability**

**4) Access to Bulk Rate Monthly and Weekly Room Rates for ISA Meeting and Event Attendees and ISA Staff and Personnel**

**5) Access to Restaurant or Banquet Rooms Able to Accommodate 50 to 100 People in Buffet Style Service - Tue to Sat / 7PM to 10PM**

**6) Access to Box Lunch Service for Afternoon Session Lunch Breaks - Tue to Saturday / 12 Noon to 1 PM**

**7) Dedicated ISA Meeting Staffing Requirements: Proposed/Estimated ~ \$100,000 to \$150,000**

(14 Hour Days x \$10 Hr x 30 Days = **\$4,200 Personal Salary Monthly**) - (26 Key Personnel x \$4,200 Monthly Salaries = **\$109,200 Staff Salaries Monthly**)

- A) Meeting Project Manger
- B) Meeting Project Executive Secretary
- C) Meeting Project Head of Security
- D) Meeting Project Session & Events Coordinator
- E) Meeting Project Attendee Relations Coordinator
- F) Meeting Project Staff Photographer
- G) Meeting Project Staff Reporter & Event Historian
- H) Meeting Project Chief Technical Writer & Editor for all Session Reports
- I) Meeting Project Staff Writer for all Session Reports
- J) Meeting Project Dictation and Written Transcripts Specialist
- K) Meeting Project Editor for the Monthly, Weekly, and Daily Newsletters and Magazine
- L) Meeting Project Staff Writer for the Monthly, Weekly; and Daily News letters and Magazine
- M) Meeting Project Advertising Specialist
- N) Meeting Project Pamphlet & Promotional materials Specialist
- O) Meeting Project Printing, Type Setting, and Document Formatting Specialist
- P) Meeting Project Artist and Compiler Graphics Specialist
- Q) Meeting Project Computer Information Technology & Internet Specialist
- R) Meeting Project Video Production Specialist
- S) Meeting Project Sound and Audio Specialist
- T) Meeting Project Accountant & Payroll Clerk
- U) Meeting Project Data Entry & Speed Typing Specialist
- V) Meeting Project Public Relations Officer
- W) Meeting Project Food & Beverage Coordinator
- X) Meeting Project Entertainment Coordinator
- Y) Meeting Project Sessions& Events Steward
- Z) Meeting Project Mail Clerk

## ISA Meetings – General Registration and Security Badge – Administrative Processing Fee is \$100 Per Person – No Exceptions

**NOTE:** Processing Fee must be received by International Space Agency no later than 14 Days “2 weeks” before first day of scheduled meetings – **No Exceptions**

**NOTE: Administrative Processing Fee** will be exclusively used for the production and issuing of meeting identification badges, and contracted security back ground checks and physical armed security services. Because of the Scope and Participation by International Diplomatic and Senior Executive Corporate Officials, the International Space Agency will be requesting support from the U.S. State Department and FBI in matters of event security and the well being and safety of all meeting participants. This event will not be publicly announced or advertised, and communications regarding this event will be exclusive to invited governments, corporations, institutions, and persons. Finalized meeting schedule and events will not be publicized outside the field of approved participants.

## **NOTE: Each Participant will receive Thumb Drive with all ISA Meeting: Literature, Information, Schedules – \$100 Per Person**

**NOTE:** A published printed version will be offered to those wanting a physical memory of this historic event, however the cost of this will not be known until a few weeks before the meeting occurs. Approved Advertising will be permitted for this historic publication to offset printing costs to meeting participants and to help fund meeting expenses, but any approved advertising must be Non-Military in Nature, and having to do with Civil Space Exploration Related Endeavors, Companies, or Institutions, and must be in the spirit of the purpose and mission of the ISA meetings. Advertising may be offered in multiple languages, however all information presented in any advertisement must also be presented in English. Advertising will all be offered in full color in the following formats:

**\$20,000** - Full Page “2” (Inside Front Cover, 1<sup>st</sup> Page) **\$18,000** - Full Page “2” (Last Page, Inside Back Cover) **\$9,000** - Half Page “4” (2<sup>nd</sup> Page, 3<sup>rd</sup> Page)  
**\$4,500** - Quarter Page “16” (4<sup>th</sup> Page, 5<sup>th</sup> Page, 6<sup>th</sup> Page, 7<sup>th</sup> Page) **24 Pages of Advertising Raises: \$184,000 Towards ISA Meeting Expenses and Staffing**

## Last several Pages of International Space Agency Meeting Publication will list Benefactors and Donators as follows:

**Donation of \$1,000 or More** - Business Card Sized Color Ad – If the Ad is Commercial - \$200 Ad Fee Charged

**Donation of \$500 or more** - Name “Bold In Gold”, Address, Phone Number, Email Address – If Ad is Commercial - \$100 Ad Fee Charged

**Donation of \$250 or more** - Name “Bold In Blue”, Address, Phone Number, Email Address – If Ad is Commercial - \$50 Ad Fee Charged

**Donation of \$100 or more** - Name “Bold In Black”, Address, Phone Number, Email Address – If Ad is Commercial - \$25 Ad Fee Charged

**Donation of \$50 or more** - Name, Address, Phone Number, Email Address – If Ad is Commercial - \$25 Ad Fee Charged

**NOTE: No Media or Media Persons** will be invited or allowed to attend any meeting activities do to the Sensitive, Proprietary, Diplomatic, and Classified nature of these Private Meetings. A post meeting press conference will be given by the International Space Agency, with over all general results of the meetings, but specific information about meeting participants and specific proprietary information will not be disclosed.

## **NOTE: All Information regarding meeting attendees and meeting sessions activities will be Proprietary and Confidential and will be accessed and known by ONLY approved meeting Representatives and Attendees.**

Furthermore, all meeting Representatives and Attendees will be required to sign a statement of Non-Disclosure in order to attend or participate in these Private International Space Agency Meetings. This is being done, as the sensitive nature of these International Space Agency meetings, and the wide range of political, ideological, and national polarization in the high technology global aerospace sector will limit any genuine, open, and productive dialog and group think, if these meetings are not conducted in a private and safe environment. During the meetings, Representatives and Attendees will be offered an opportunity to make a public statement at the final International Space Agency Press Conference, IF, and ONLY, when they agree to this IN ADVANCE. This strict policy is NOT being implemented to HIDE anything, but insure that the Representatives and Attendees feel SAFE to OPENLY share ideas, concepts, hopes, and concerns, with out fear of reprisals, slander, or attacks. It is critical for these very important historic International Space Agency meetings to develop a sense of peaceful and positive Unity and a collective consciousness of universal good will by the peoples of Earth, therefore it is our main goal to provide a safe and private place for those Representatives and attendees coming to openly participate in these historic International Space Agency meetings.

**NOTE: Primary Representative:** is a person who is the official spokesperson on behalf of a Government, Corporation, or Institution.

**NOTE: Additional Representatives:** are persons officially attending from a Government, Corporation, or Institution that are not the Primary Representative. Additional Representatives may upon the appointment of the Primary Representative attend a session event on the behalf of the Primary Representative, Except for mandatory Monday Preamble Ceremonies, which all Primary Representatives must attend.

**NOTE: Legitimate Support Personnel:** are people who are employed by a Primary Representative or Additional Representative that need legitimate and approved access to the meeting event & sessions for official business in support of the functions of a Primary Representative or Additional Representative, such as Executive Administrative and Security Personnel. Such support personnel must be justified to ISA Staff, and approved by ISA Meeting Chief of Security.

## Type 1 – Executive Personnel Attending on behalf of National Governments: Embassies / Agencies / Institutions / Military

## International Space Agency Meeting – Proposed Outline For: Weekly Session & Event - Format & Schedule:

### W1- Week One Schedule – International Space Agency (ISA) Charter “Constitution” -&- Treaty Infrastructure

International Space Agency – Draft Charter and Report Regarding Identified Benefits -&- Detractors and Key Suggestions -&- Concerns  
International Space Agency – 2020 Proposed Washington, D.C. Office -&- Staffing Budget -&- ISA Member Nations -&- Organizations

### W2 – Week Two Schedule – ISA “Key” Gateway Program 1 – International Space Operations Center (I.S.O.C.)

International Space Agency – International Space Plane Program -&- International Electromagnetic Assisted Space Launch System

### W3 – Week Three Schedule – ISA “Key” Gateway Programs 2 -&- 3 – International Space Operations Center (I.S.O.C.)

International Space Agency – International Earth Orbital Infrastructure ( I.E.O.I. ) -&- International Space Station (I.S.S.) Program

### W4 – Week Four Schedule – ISA “Key” Gateway Programs 4 -&- 5 – International Space Operations Center (I.S.O.C.)

International Space Agency – International Planet/Moon Launcher/Lander ( I.P.M.L.L. ) -&- International Solar Cruiser ( I. S. C. ) Program

### W5 – Week Five Schedule – ISA “Key” Gateway Programs 6 -&- 7 – International Space Operations Center (I.S.O.C.)

International Space Agency – International Luna Exploration ( I. L. E. ) Program -&- International Mars Exploration ( I. M. E. ) Program

**NOTE:** All Weekly Sessions will use the same weekly meeting and activities format and schedule as outlined below

## Monday - 7AM to 10AM – Mandatory Meeting Registration & Badge Clearance – Pre-Registration Options Will Be Offered

**NOTE:** International Space Agency staff are available for assistance or questions the participants may have or need.

**Monday - 8AM to 10AM - Meet & Greet Breakfast** - All VIP's, Primary Representatives, Meeting Participants, Provided Buffet Breakfast

## Monday - 10AM to 2PM - Meeting Preamble Session 1 - International Space Agency Meeting Preamble & Introduction Ceremony

**NOTE:** This Session and Event is Mandatory for ALL Meeting Attendees and Participants, ANY Meeting Attendee or Participant NOT Participating in this Session will be unable to participate in any Open Door Sessions, Closed Door Sessions, Discussion Sessions, Debate Sessions, Committees, or Working Groups, of this weeks events.

**10:00AM to 10:50AM – Introduction and Acknowledgement Ceremony of Diplomats, VIP Guests, and Primary Meeting Representatives**

**10:50AM to 11:00AM – 10 Minute Break**

**11:00AM to 11:50AM – ISA Public Affairs Officer – ISA Meeting Representatives & Attendees – Meeting/Session Packets Distributed**

**NOTE:** Public Affairs Officer for the International Space Agency hands out the Meeting/Session Participant Packets for that Week. Overview of the Weeks Sessions, Events, Services, and Opportunities is also displayed on the stage video screen, and also provided to a laptop link. ISA Public Affairs Officer and ISA Meeting Staff are positioned at information stations along the front of the stage area, and are there to help and to answer any questions the participants may have.

**11:50AM to 12:00Noon – 10 Minute Break**

**12:00Noon to 12:30AM – 30 Minute International Space Agency Video Presentation** on how the Open Door Sessions, Closed Door Sessions, Discussion Sessions, Debate Sessions, Committees, and Working Groups will be Structured, Conducted, and Organized, there Purpose, and how the results of these Sessions will be recorded and acted on over the entire International Space Agency Meeting Agenda and Draft Charter & Mission Directives Creation & Formation Process.

**12:30Noon to 12:50PM – ISA Public Affairs Officer – Meeting Participants are given an Overview Briefing of Meeting/Session Packets**

**12:50AM to 1:00PM – 10 Minute Break**

**1:00PM to 1:50PM – Meeting Committees & Working Groups Formed – These are Voluntary Assignments by Interested Persons Only**

**NOTE:** Committees & Working Groups are Open To The Public Globally. Physical Attendance is Strongly Encouraged, But Internet Participation is Authorized by Approved & Vetted Persons. Committee Chairs and Group Leaders must Physically be in Attendance at the ISA Meeting.

These are the ISA Meeting Committees and Working Groups which are presently available. Participation must be approved by ISA Staff.

**01) International Space Plane Program Committee – Spaceplane Group / Electromagnetic Assisted Launch Group / Launch Site Group**

**02) International Earth Orbital Infrastructure Program Committee - Stations Group / Facilities Group / Remote Sensing-Satellites**

**Group**

**03) International Planet & Moon - Launcher & Lander Program Committee – Planet Group / Moon Group / Asteroid/Comet Group**

**04) International Asteroid/Comet Program Committee – Detection Tracking Group / Identify Database Group / Defense Protocols Group**

**05) International Mars Exploration Program Committee – Crewed Group / Robotic Group / Settlement Group / Mars Science Group**

**06) International Luna Exploration Program Committee – Crewed Group / Robotic Group / Settlement Group / Luna Science Group**

**07) International Supercomputer Center Committee – Database Group / Hardware Group / Software Group / Facility Group**

**08) International Space Operations Center Committee – Communications Group / Data Group / Operations Group / Facility Group**

**09) International Space Weather/Hazards/Traffic Center Committee – Optical Group / Radio Group / Debris Group / Traffic Group**

**10) International Space Treaty/Law Committee – Treaty Group / Law Group / Contract Group / Litigation Group / Enforcement Group**

**11) International Space Society Committee – Government Group / Military Group / Academia Group / Religion Group / Culture Group /**

**Commerce Group / Trade Group / Tourism Group / Hospitality Group / Transportation Group / Communications Group / Arts Group /**

**Media Group / Entertainment Group / Judicial Group / Law Enforcement Group / Emergency Services Group / Industry Group /**

YR: 2019 SD: 059 TM: 17:00 TY: EXT CT: GOV CF: DIP CL: PRO DI: GRA AU: 2019777 NA: 777 PG: 13 of 18

**Friday – 7PM to 10PM – ISA Staff Meeting** – Select Invited Persons - **Final Editing** - Sessions 6 & 7 & 8 Typed-Formatted Draft Report

**NOTE: Final Formalized, Typed & Formatted, results will be circulated to all ISA Meeting Participants next day. Emailed by Midnight**

**Friday – 5PM to 10PM – International Space Agency Staff are available for any assistance the participants may have or need.**

**Friday – 5PM to 10PM – Private Meeting Rooms & ISA Staff Support Provided to ISA Meeting Committees & Working Groups**

**Friday – 7:00AM to 9:00AM – International Space Agency staff are available for any assistance the participants may have or need.**

**Friday – 8:00AM to 9:00AM – Breakfast Buffet 4** - and tables and private meeting spaces to facilitate organized debate and networking.

**Friday – 9:00AM to 11:00 Noon – Open Session 12 – Parliamentary Format** – All Benefits, Hopes, Detractors, and Concerns identified in Session 7 & 8 final report are voted on. This session will identify the top 12 Benefits, top 12 Hopes, top 12 detractors, and top 12 concerns. Once the voting is finished, the results will be displayed on the video screens, and printed out for all session participants. If time is left in the session, and open discussion of prospective wording, verbiage, and context of International Space Agency Charter and Mission statement and directives is sought. **A Session Chair Will Be Appointed** to lead the session. Primary Representatives will be given a vote card with a list of all key items identified.

**1) 40 Key Benefits Identified** where note worthy, of apparent importance, and was generally accepted by majority of Primary Representatives.

**2) 40 Key Detractors Identified** where note worthy, of apparent importance, and was generally accepted by majority of Primary Representatives.

**3) 40 Key Hopes Identified** where note worthy, of apparent importance, and was generally accepted by majority of Primary Representatives.

**4) 40 Key Concerns Identified** where note worthy, of apparent importance, and was generally accepted by majority of Primary Representatives.

**The Session Chair** will ask all those wishing to make their Vote “Yes or No or Abstain” public, to stay in their seats. Those wishing to cast their Vote, but anonymous, are to fill out their Vote Card with no name and bring it forward to be dropped in a locked voting box. The anonymous votes will then be counted in full view of the session attendees and presented on marker boards around the room. The voting cards with no names will then be entered into the record and vote card historic archive. Then the Session Chair will conduct an item by item Vote of each item by a show of hands for Yes, No, and Abstain. As the Vote is taken for each item the marker boards are updated for each item. When the Votes are finished, the results will be used to narrow the 40 items in each category to 12 key items for each category, that will be used in future activities. The final Vote count for all 40 items will be finalized and formatted and provided in a Vote summary document and general overview report, and then the 12 top terms in each category will then be identified and highlighted for use as a focal point for future negotiations & debate. \*this event is mandatory for all primary Attendees. **NOTE: Open Session 10 - Is Mandatory For All Primary Representatives**

**Friday – 11:00AM to 12:00 Noon – Meet & Greet Break 9** – Catered Box Meal Available

**Friday – 12:00 Noon to 2:00PM – Open Session 13 - Parliamentary Format** – open discussion of prospective wording, verbiage, and context of Charter and Mission statement and directives is sought. The ISA Media Staff and Transcriptionist, present this proposed Charter and Mission Statement and directives in real time on an overhead video screen, and on internet server to lap tops, as it is being created, drafted, debated, and formed. Legal specialists and Contract and Treaty Specialist working on the behalf of the International Space Agency, will be present during this session, and will assist in the charter drafting verbiage and wording format and structure in real time as it is being debated and drafted. By the end of this session, a draft Charter and Mission Directive will be created.

**NOTE: Open Session 11 - Is Mandatory For All Primary Representatives**

**Friday – 2:00PM to 3:00PM – ISA Staff, Contracted Specialists, and Invited Persons, will edit and clean up the Draft Charter & Mission Directives.**

**Friday – 2:00PM to 3:00PM – Meet & Greet Break 10** – Catered Box Meal Available

**Friday – 3:00PM to 5:00PM – Open Session 14 - Parliamentary Format – Draft Charter & Mission Directives is debated and voted on**

**3:00PM to 3:30PM – Draft Charter & Mission Directives are Read by all Session Participants**

**3:30PM to 4:00PM – Only Spelling, Grammar, Format, and Contextual Document Errors are Specifically Addressed (Updates Displayed in Real Time)**

**4:00PM to 4:30PM – Structured & Focused Debate of Draft Charter Document – Any Proposals for Document Alterations that carries a strong Majority Agreement and Support will be made in real time.** **NOTE: A Session Chair Will Be Appointed** to lead the session. Primary Representatives are given 5 minutes to address the final report and the Draft Charter of the International Space Agency. They may chose for their comments to be either off the record or for on the record. This is not a debate session, and comments are allowed without interruption or response. If there is time remaining, after all who wish to use their 5 minute comments to be heard, then the Session Chair may ask if any wish to speak to further their comments time or to ask a question of another who has spoken. These will also be restricted to 5 minutes or less.

**4:30PM to 5:00PM – Final Vote by Primary Representatives or delegated Secondary Representatives is made on Draft Document.** If the vote is in support by 70% or greater, it will be turned over to the International Space Agency for final editing and distribution to all meeting participants. If the positive vote is less than 70%, the session will go into a one hour emergency session in which those who voted no, will have a last chance to address their concerns. Genuine effort by the ISA Team to address these concerns will be made if possible. At the end of the emergency session if any changes to the Draft Charter and Mission Directives is made, a second re-vote will be taken. On the second vote, if 51% or greater vote in support of the Draft Charter and Mission Directives, it will be turned over to the International Space Agency for final editing and distribution to all meeting participants. If less than 51% support is the result, only the Representatives voting no, will attend a closed session 4 to privately address the International Space Agency leadership in confidential negotiations, in and attempt to privately address their concerns, in an attempt to secure yes vote. If their concerns can not be addressed in the good will and spirit of the International Space Agency Meetings, to secure a yes vote, the International Space Agency will issue the Finished Draft Charter & Mission Directives achieved from the collective efforts of the meetings, and distribute it to all meeting participants, as is. **NOTE: This event is Mandatory for All Primary Representatives**

**Friday – 4:00PM to 5:00PM – Dinner Buffet** - and tables and private meeting spaces to facilitate organized debate and networking.

**Friday - 6:00PM to 8:00PM - Closed Session 15 – Reserved For Potential Emergency Meeting Obligations** – This session will only be employed if a Yes Vote of less than 51% is achieved in the Final Vote Session. This meeting will be confidential/proprietary, and the discussions will not be published or recorded.

**b) "D.B.A.": International Space Agency Project – "In Academic Use Between, 1986 to 1992"**

**c) "D.B.A.": International Space Agency "I.S.A." – 1986 to "Perpetual"**

**d) "D.B.A.": International Space Administration – 1986 to "Perpetual"**

**e) International Space Agency: Name, Public Identity, Logo, Emblem: Are: U.S.A. Registered ®: Trademark ™ & Copyrights ©, 1986-2018  
Scientific & Aerospace - Research & Development / Non-Profit Corporation / Incorporated 1990 / New York State / United States of America**

**United States Patent & Trademark Office / Filed P.R. 10-7-2002 / SER. NO. 76-456-244**

**Supplemental Register - Service Mark / Registered 28 March 2006 - Reg. No. 3,074,813**

**Technical Consultation, Research, and Engineering in the Field of Aerospace**

**In Class 42 ( Prior U.S. CLS 100 and 101 )**

**2) The corporation is a corporation as defined in subparagraph (a), (5) of Article 102 (Definitions) of the "Not-for-Profit" Corporation Law.**

**3) Purpose, or Purposes, for which the Corporation is Formed; are as Follows:**

**a) To Promote, by Establishment, Demonstration, or Otherwise, the Undertaking of International Space:** Exploration, Exploitation, Colonization/Settlement, Programs, Projects, Missions, Science, and Services in the Private, Quasi-Public, and Public Sectors; **Primarily, "Firstly"**, to the Benefit Of, and on Behalf Of, its Member: Government & Non-Government: Organizations, Institutes, Persons; and **"Secondly"**, **In General**, on the "Behalf Of" the Peoples of the World Community "Earth"; and for Exclusively "Non-Military" Peaceful Purposes;

**b) To Foster Research on International Space:** Exploration, Exploitation, Colonization/Settlement, Programs, Projects, Missions, Services, Science, Technology, and Related Fields;

**c) To Promote the Exchange of Ideas, and to Disseminate Information on International Space:** Exploration, Exploitation, Colonization/Settlement, Programs, Projects, Missions, Services, Science, and Technology, and Related Fields; for Use By Its Members, and as approved and supported, by all Types of Governmental, Non-Governmental, and Private: Entities, Organizations, Institutes, Professional Persons, Public Generally;

**d) In Order to Achieve the Aforementioned Purposes, the Corporation shall have the following Powers:**

**i) To Propose, Promote, Plan, Develop, Organize, Implement, Operate, and Maintain; The International Space Agency Organizations: "International":** Headquarters, Space Operations Center, Administration, Commands, Operations and Research Complexes and Centers; International Space Academy and International Personnel Training Center; **and International Space:** Facilities, Bases, Stations, Spacecraft, Programs, Commissions, Committees, Projects, Missions, and Services; **and** Space Regulation Commission S.R.C.; Space Planning Commission S.P.C.; International Supercomputer Center "Facility" and Data Base, Internet Information Services; **and International Space:** News, Media, Educational Informational Services;

**ii) To Solicit, Collect, Accept, and Otherwise by Bequest, Devise, Gift, Donation, Contribution, Grant, Purpose, or Otherwise, Property of Any Sort, Without Limitation to Amount, Kind, or Value, and to Use, Disperse, or Donate the Income, or Principal, Thereof Exclusively for the Purposes Hereinbefore Stated;**

**iii) To Receive Assistance, "Globally", from Government, Non-Government, and Private: Entities, Agencies, Organizations, Corporations, Institutes, Foundations, Societies, Professional Persons, and Public Generally;**

**iv) The Corporation shall have the Power to do any other Act or Thing Incidental To or Connected With the Aforesaid Purposes or in Advancement Thereof,**

**v) The Corporation shall not have the power to issue certificates of stock or to declare or pay dividends and shall be operated exclusively for the purposes enumerated in this section.**

**PROPRIETARY & CONFIDENTIAL – MEETING ATTENDANCE APPLICATION FORM**

**NOTE: Send this finished confidential application to the address in Page 1 Letter Head.** With this finished application, please send a business card and contact information. Also, we need a letter from you, requesting to participate in these International Space Agency Diplomatic & Private Meetings proposed for Late 2019 or Early 2020, on Official Letter Head of the Agency, Corporation, University, or Organization you will be representing. We will give private monthly updates of meeting developments by ground mail, only to persons who have responded or having applied to attend. **Thank You.**

**1) Circle Only One: A) Acting As The Primary Representative B) Acting As An Additional Representative**

**NOTE:** There can be only one Primary Representative of any Organization, who will carry the vote in all sessions on behalf of that Organization. In the case of National Governments, individual Agencies or Organizations may designate a Primary Representative Independently, unless the National Government decides to appoint a Primary Representative over all of its attending Agencies. In cases of National Government Agencies located in the United States, the Ambassador of the Embassy in Washington, D.C. would serve as the Primary Representative should he or she so decide. If a National Government chooses to so micromanage its Agencies, the Additional Representatives in this case would have limited voice & access in open & closed door sessions, but would have no vote or official voice.

**2) Circle Only One: A) Diplomatic (Government) B) Corporate C) Academia/Science D) Other**

**3) (As Displayed In Meeting Credits) Full Name: \_\_\_\_\_**

**4) Official Title or Position: \_\_\_\_\_**

**5) Department / Office / Division: \_\_\_\_\_**

**6) Are You Going To Have Support Staff With You?: YES / NO Security Personnel?: YES / NO**

**7) The Above Person Is Officially Representing The Following -Government, Agency, Corporation, or Institution:**

**List The Organizations Name Here: \_\_\_\_\_**

**8) Circle Only One: A) Acting As Official Representative or Spokes Person B) Acting As Official Observer Only**

**NOTE:** Official Observers will have no voice or vote during open door sessions and cannot attend closed door sessions. If an Organization designates its Primary Representative as an Official Observer, that Organization will in effect have no vote or official voice in any of the open sessions, and will be unable to participate in any closed door sessions. A Primary Representative, who is in the capacity of an Official Observer, cannot appoint an Additional Representative to act on their behalf as an Official Representative or Spokesperson of the Organization. Official Observers are there only to observe, not to participate, likely because the Organization they represent is unwilling or unable to participate due to polarized ideologies, politics, or rivalry, and/or is afraid to take any official public position.

**9) Type Of Organization: Please Circle All Below That Applies:**

- |                                  |  |  |
|----------------------------------|--|--|
| <b>Please Circle One Only:</b>   | <b>A) Is A Government Entity</b>                   | <b>B) Is Not A Government Entity ( Private or NGO Entity)</b>    |
